### Paxson Marketing Ltd

This is to confirm that iTech Labs has examined the casino game logs in the gaming system of **Paxson Marketing Ltd.** for the quarter ending September 2015 as recorded by the respective game servers. iTech Labs has calculated the Return To Player (RTP) for all the games using the data from the game logs. The table below lists the actual calculated RTPs for real money games played.

**Paxson Marketing Ltd.** game servers service the following internet gaming sites:  
[www.silversandscasino.com](http://www.silversandscasino.com), [www.jackpotcash.com](http://www.jackpotcash.com)

Game Type Description	RTP
Caribbean draw <sup>1</sup>	128.26%
Caribbean Hold'em	98.39%
Vegas Three Card Rummy	98.00%
Roulette	97.30%
BlackJack	97.01%

Other games combined*	88.23%
All games combined	93.85%

\* Other games combined - includes Baccarat, Craps, European Slot Poker, Pai Gow Poker, Red Dog, Sic Bo and War.

There were a large enough number of game records to give the RTP calculations sufficient statistical power<sup>2</sup>. The actual RTPs shown above are percentages of total actual winnings to bets for each game type. iTech Labs has done checks to verify the integrity of the game logs. iTech Labs also maintains a copy of the game logs for verification purposes.

iTech Labs certifies that the RTPs were calculated correctly from the game logs based on the actual bets and winnings and that the actual RTPs are greater than normally required by international gaming jurisdictions.

<sup>1</sup> \*For this audit period Caribbean draw has RTP higher than normally required by international gaming jurisdictions due to insufficient data.

<sup>2</sup> The games included in the Other games combined category have insufficient data for the audit period.

Other games combined*	82.15%
All games combined	93.87%

\* Other games combined - includes Craps, European Slot Poker, Keno, Pai Gow Poker, Red Dog, Sic Bo and War.

There were a large enough number of game records to give the RTP calculations sufficient statistical power<sup>2</sup>. The actual RTPs shown above are percentages of total actual winnings to bets for each game type. iTech Labs has done checks to verify the integrity of the game logs. iTech Labs also maintains a copy of the game logs for verification purposes.

iTech Labs certifies that the RTPs were calculated correctly from the game logs based on the actual bets and winnings and that the actual RTPs are greater than normally required by international gaming jurisdictions.

<sup>1</sup> iTech Labs has chosen a 95% confidence measure for 'statistical significance'. Based on this measure, statistically significant variations would be expected to appear 5% of the time without indicating any serious problem with RTPs. iTech Labs recommends games with statistically significant variations are reviewed again during the next audit to verify that the same variations are not recurring, which may then indicate a problem.

<sup>2</sup> The games included in the Other games combined category have insufficient data for the audit period.
