Salmon River Technologies Limited

P.O. Box 2190
Kahnawake, QC
J0L 1B0

This is to confirm that iTech Labs has examined the casino game logs in the gaming system of **Salmon River Technologies Limited** for the quarter ending September 2015 as recorded by the respective game servers. iTech Labs has calculated the Return To Player (RTP) for all the games using the data from the game logs.

The table below lists the actual calculated RTPs for real money games played.

Bovada game servers service the following internet gaming sites:

www.Bovada.lv

Game Type Description	RTP
Table games	98.07%
Video Poker	97.32%
Slots	96.11%
Specialty Games	92.98%
All games combined	97.59%

There were a large enough number of game records to give the RTP calculations sufficient statistical power. The actual RTPs shown above are percentages of total actual winnings to bets for each game type. iTech Labs has done checks to verify the integrity of the game logs. iTech Labs also maintains a copy of the game logs for verification purposes.

iTech Labs certifies that the RTPs were calculated correctly from the game logs based on the actual bets and winnings and that the actual RTPs are greater than normally required by international gaming jurisdictions.
