

Random Number Generator Certificate

Operator: Lucky Skill Ltd.

URLs: www.backgammonmasters.com

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) from Lucky Skill Ltd. and found that the RNG complies with the relevant standards.*

The RNG uses a widely recognized algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated shuffling for 8 decks of cards. iTech Labs has also conducted scaling tests for the dice games. The shuffling and scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the card/dice sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

* Notes:

The RNG was tested according to Alderney Gambling Control Commission (AGCC), UK Gambling Commission, Isle of Man and Malta standards.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
