Random Number Generator Certificate

Operator: Pariplay Ltd
Operator URLs: http://www.wintingo.com

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) used by Pariplay Ltd and found that the RNG complies with the relevant standards.*

The RNG uses a well known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated scaling for Scratch games. These games use very large ranges. The scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

Principal Consultant
iTech Labs Australia

22 June 2012

* The RNG was tested according to Isle of Man Gambling Supervision Commission standards.

Disclaimer.
While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
