

Pikum System Evaluation Certificate

Operator: Pikum! Worldwide Limited

URL: www.pikum.com

This is to certify that [iTech Labs](http://www.itechlabs.com) has evaluated the Pikum system and games and found they comply with the relevant Alderney Gambling Control Commission (AGCC) Standards*.

Our evaluation of Pikum system consisted of game rules review, functional tests and source code review. Functional tests included Pikum creation, play Pikums, results entry, payout confirmation, vigorish calculations and Pikum scoring. We have found that the Pikum games are fair and the system is reliable and resilient.

iTech Labs has also verified procedures for software integrity including change control mechanisms. All major functional changes including new games that constitute major changes are independently tested and certified.
