

Random Number Generator Certificate

Operator: Sachar Gaming Pvt. Ltd.

Operator URL: www.khelplayrummy.com

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) used by Sachar Gaming Pvt. Ltd and found that the RNG complies with the relevant standards.*

The RNG uses a well known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has also evaluated card shuffling for single deck (0, 1 & 2 jokers), 2 decks (0, 1 & 2 jokers), 3 decks, 4 decks, 6 decks and 8 decks. The shuffling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the card sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

15 July 2013

* The RNG was tested according to UK Gambling Commission and Isle of Man Gambling Supervision Commission and standards.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
